Parent & Teacher Guidance

Curriculum focus

Topic: Alphabet animals. Develop accurate observation, subject vocabulary and evidence-based explanation. Mapped scope: EYFS learning and development: purposeful play, communication, physical development and expressive learning.

Before you begin

Review the picture together and ask the learner what they already notice about Alphabet animals. Read the activity aloud, explain unfamiliar vocabulary, and agree which details need special attention.

Solo activity

The learner can complete the colouring independently, then use the finished page to explain three details linked to Alphabet animals. Encourage accurate colour choices where they carry meaning, but allow creative choices elsewhere.

Group activity

Give pairs or small groups different areas to inspect. Ask them to agree on evidence before colouring, compare their findings, and present one curriculum fact to the class. Finish with a whole-group check against the guidance below.

Questions to guide discussion

Which pictured animal starts with /e/? Which starts with /m/? Can the learner match E and M?

Answers and checking

Elephant begins with /e/ and E; monkey begins with /m/ and M. Accept oral matching if writing is not yet secure. The letters are supplied by this task, not printed in the original art.
