

Hot and cold places Colour And Observe Colouring Page

KS1 / Year 1 - Geography

Colour the globe and contrasting landscapes. Point to the Equator, North Pole and South Pole, then describe which areas are generally hotter or colder.

Hot and cold places Colour And Observe Colouring Page

KS1 / Year 1 - Geography

Colour the globe and contrasting landscapes. Point to the Equator, North Pole and South Pole, then describe which areas are generally hotter or colder.

Parent & Teacher Guidance

Curriculum focus

Topic: Hot and cold places. Develop accurate observation, subject vocabulary and evidence-based explanation. Mapped scope: KS1 Geography: locating hot and cold areas of the world in relation to the Equator and the North and South Poles..

Before you begin

Review the picture together and ask the learner what they already notice about Hot and cold places. Read the activity aloud, explain unfamiliar vocabulary, and agree which details need special attention.

Solo activity

The learner can complete the colouring independently, then use the finished page to explain three details linked to Hot and cold places. Encourage accurate colour choices where they carry meaning, but allow creative choices elsewhere.

Group activity

Give pairs or small groups different areas to inspect. Ask them to agree on evidence before colouring, compare their findings, and present one curriculum fact to the class. Finish with a whole-group check against the guidance below.

Questions to guide discussion

What evidence can you see? Which feature is most important and why? How does one part connect to another? What new fact about Hot and cold places can you explain using the picture?

Answers and checking

No fixed answer is required. Accept well-supported observations that match the curriculum focus and visible evidence.

Learning record and next steps

☐ Completed the colouring

☐ Explained key vocabulary

☐ Completed the activity

☐ Used visible evidence
