

Urban change Activity Challenge Colouring Page

KS4 / GCSE / Year 11 - Geography

Identify the missing or incomplete component in this urban change study plate, then colour-code the system.

Urban change Activity Challenge Colouring Page

KS4 / GCSE / Year 11 - Geography

Identify the missing or incomplete component in this urban change study plate, then colour-code the system.

Parent & Teacher Guidance

Curriculum focus

Topic: Urban change. Develop accurate observation, subject vocabulary and evidence-based explanation. Mapped scope: DfE GCSE subject content and key stage 4 curriculum entitlement.

Before you begin

Review the picture together and ask the learner what they already notice about Urban change. Read the activity aloud, explain unfamiliar vocabulary, and agree which details need special attention.

Solo activity

The learner can complete the colouring independently, then use the finished page to explain three details linked to Urban change. Encourage accurate colour choices where they carry meaning, but allow creative choices elsewhere.

Group activity

Give pairs or small groups different areas to inspect. Ask them to agree on evidence before colouring, compare their findings, and present one curriculum fact to the class. Finish with a whole-group check against the guidance below.

Questions to guide discussion

What evidence can you see? Which feature is most important and why? How does one part connect to another? What new fact about Urban change can you explain using the picture?

Answers and checking

The missing regeneration link is direct public transport between the housing area and employment district. A valid completion joins the two stops with a clear bus or rail route.

Learning record and next steps

☐ Completed the colouring

☐ Explained key vocabulary

☐ Completed the activity

☐ Used visible evidence

Evidence noticed / vocabulary used
