

Families Vocabulary And Facts Colouring Page

KS1 / Year 2 - Relationships Health Education

Colour carefully, then count and name the main features shown.

Families Vocabulary And Facts Colouring Page

KS1 / Year 2 - Relationships Health Education

Colour carefully, then count and name the main features shown.

Parent & Teacher Guidance

Curriculum focus

Topic: Families. Develop accurate observation, subject vocabulary and evidence-based explanation. Mapped scope: DfE statutory Relationships Education, RSE and Health Education guidance; use the version applicable on the teaching date, including revised guidance from 1 September 2026.

Before you begin

Review the picture together and ask the learner what they already notice about Families. Read the activity aloud, explain unfamiliar vocabulary, and agree which details need special attention.

Solo activity

The learner can complete the colouring independently, then use the finished page to explain three details linked to Families. Encourage accurate colour choices where they carry meaning, but allow creative choices elsewhere.

Group activity

Give pairs or small groups different areas to inspect. Ask them to agree on evidence before colouring, compare their findings, and present one curriculum fact to the class. Finish with a whole-group check against the guidance below.

Questions to guide discussion

What evidence can you see? Which feature is most important and why? How does one part connect to another? What new fact about Families can you explain using the picture?

Answers and checking

Open response. Credit clearly visible, correctly identified features and an age-appropriate explanation. Useful vocabulary: families, feature, process, function, evidence, relationship, effect.

Learning record and next steps
