

Tenths As Fractions Vocabulary And Facts Colouring Page

KS2 / Year 3 - Mathematics

Colour and label tenths shown as equal parts of shapes and quantities.

Tenths As Fractions Vocabulary And Facts Colouring Page

KS2 / Year 3 - Mathematics

Colour and label tenths shown as equal parts of shapes and quantities.

Parent & Teacher Guidance

Curriculum focus

Topic: Tenths as fractions. Develop accurate observation, subject vocabulary and evidence-based explanation. Mapped scope: DfE Year 3 mathematics programme of study: number - fractions.

Before you begin

Review the picture together and ask the learner what they already notice about Tenths as fractions. Read the activity aloud, explain unfamiliar vocabulary, and agree which details need special attention.

Solo activity

The learner can complete the colouring independently, then use the finished page to explain three details linked to Tenths as fractions. Encourage accurate colour choices where they carry meaning, but allow creative choices elsewhere.

Group activity

Give pairs or small groups different areas to inspect. Ask them to agree on evidence before colouring, compare their findings, and present one curriculum fact to the class. Finish with a whole-group check against the guidance below.

Questions to guide discussion

What evidence can you see? Which feature is most important and why? How does one part connect to another? What new fact about Tenths as fractions can you explain using the picture?

Answers and checking

Expected labels, where shown: whole, ten equal parts, one tenth, numerator, denominator, number line. Match each word to a visible feature; accept an equivalent accurate term when the diagram supports it.

Learning record and next steps

☐ Completed the colouring

☐ Explained key vocabulary

☐ Completed the activity

☐ Used visible evidence

Evidence noticed / vocabulary used
